THE AMERICAN HISTORICAL ASSOCIATION (AHA)
COMMITTEE FOR THE STUDY OF WAR DOCUMENTS

GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

This is part of a series of Guides prepared by the American Historical Association listing records microfilmed at Alexandria, Va., by the American Historical Association Microfilming Project.

An American Committee for the Study of War Documents was established in 1955 as a private group of scholars, interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956, the American Committee became a committee of the American Historical Association. Its present chairman (1960) is Professor Oron J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn M. Case of the University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation, Lilly Endowment, and Avalon Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the World War II Records Division of the National Archives (previously TAGO, Departmental Records Branch) at Alexandria, Virginia.

The plans for screening and microfilming of these materials were prepared by a Subcommittee on Microfilming under the chairmanship to the end of 1956 of Professor E. Malcolm Carroll, Duke University, and his successor, Dr. Fritz T. Epstein, The Library of Congress. The microfilming team at Alexandria was under the direction of Professor Gerhard L. Weinberg of the University of Michigan in 1956/57, of Dr. Dagmar Horna Perman from 1957 to September 1959, of Mr. James G. McDowell from September 1959 to August 1960, and is now under the supervision of Dr. Willard Allen Fletcher of the University of Colorado.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staffs of the National Archives, especially its World War II Records Division, as well as the U.S. Department of the Army.

This Guide is one of a series of finding aids describing those declassified seized German records deposited at the World War II Records Division, National Archives, which have been microfilmed by the Microfilming Project of the Committee for the Study of War Documents of the American Historical Association. The Guide contains the text of data sheets identifying records filmed. A copy of the data sheets has been filmed as a target sheet at the beginning of each roll of film.

This Guide covers 63 rolls of film of the records of anti-aircraft units, the air force commands, and the air force mission to Rumania. The records of the Flak units are quite similar to anti-aircraft files in the OKL collection (T-321, Guide 24). However, the group in this Guide contains very interesting material on the initial organization of the Flak units during the period 1932-34.

The files of the Luftgaukommandos described pertain primarily to Luftgaukommandos VII, VIII, XII and XVII, to Luftkreise, and to new commands created in the course of the war: Luftgaukommando Westfrankreich, Luftgaukommando Nordfrankreich, Kontrollinspektion Afrika, Fliegerführer Atlantik. The files of a Luftgau reflect the essentially administrative function of such a command and deal with a variety of topics: construction and maintenance of air-fields; accounting; personnel management in reference to Luftwaffenhelfer, Luftwaffenhelferinnen, German and foreign civilian labor, Italian soldiers, and others.

The records of the Luftwaffenmission date from its arrival in Rumania, September 1940. The Mission was charged with the responsibility for directing the air defense of Rumania and co-ordinating the activities of the German and Rumanian air force units on the Russian front. The officers in command were General der Flieger Speidel and Generalmajor Gerstenberg. Included in this group of records are the files of the Verbindungsstelle des Generalluftzeugmeisters Rumänien, a unit working directly under the supervision of the Generalluftzeugmeister. It had the responsibility for the development of the Rumanian air industry, the supply of German materials and experts for this program, and the supervision over the Rumanian oil industry. In matters of internal administration it was subordinate to the Luftwaffenmission and worked in close collaboration with it.

It may be noted that low-level personnel and accounting files, were not filmed. In the records of the Luftgaukommandos only significant samples of the large number of files, dealing with the acquisition of facilities and the like, were filmed. A selective process was also followed in reference to meteorological data and Flak reports on enemy aircraft destroyed. Finally, purely technical instruction pamphlets, pertaining to aircraft construction and maintenance, were also omitted.

The terms "Serial" and "Roll" in this Guide refer to the sequence of film. The "Item" number is the identification symbol on the original folder within the captured records collection. "Provenance" indicates, where ascertainable, the archival origin of the documents whose description follows. The symbol "FT" means that the folder has been filmed throughout; the symbol "FS" denotes that the folder has been filmed selectively. "1st Frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively throughout the filming operation. The "Notes" provide a general idea of the nature of the materials but should not be taken as exhaustive descriptions. Apart from a few minor rearrangements folders were filmed in numerical order. Although, on the whole, subjects tended to appear coherently and in numerical sequence, it is still necessary to check the whole Guide for any one subject.

The original records have been returned to the Federal Republic of Germany. The microfilms are deposited in the National Archives, Washington 25, D.C., as microcopy T-405, rolls 1-63, and should be requested by adding "T-405" to the rolls desired.
